

Andhika Putra Bagaskara

Junior Data Analyst

Andhikaputra1301@gmail.com | +6282213676520 | linkedin.com/in/andhika-putra-bagaskara13

SUMMARY

A data analysis enthusiast with an educational background in Informatics Engineering and certification in Data Analytics, and currently studying machine learning. Proficiency in data processing, visualisation, and analysis using Python, Tableau, and Excel. Good problem-solving and critical thinking skills, committed to providing accurate data insights to support company decision-making, and highly motivated to continue learning and developing in the field of data analysis.

EDUCATION

Telkom University

2024 – Present

Master Degree of Informatics Engineering

Relevant Coursework: Data Analysis, Algorithms, Machine Learning, Artificial Intelligence

- Current GPA: 3.0/4.0

Dibimbing.ID

2024 - Present

AI Machine Learning Engineer

- Learn about Feature Engineering, Machine Learning, Ensemble Learning, and Deep Learning
- Technical Skill: Python, Docker

Computer University of Indonesia

2017 - 2022

Bachelor Degree of Informatics Engineering

Relevant Coursework: Software Engineering, Algorithms, Artificial Intelligence

- GPA: 3.07/4.0
- Created an application based on android for running as a project for bachelor's thesis

WORKING EXPERIENCES

PT Pertamina Persero

2022 – 2023

Internship

- Automate the management of ticket request data from the website using RPA and send the analysis via email to the relevant department.
- Create a website dashboard to manage internal asset

CERTIFICATION

Big Data using Python

2021

Online Course – Kominfo

Google Data Analytics

2024

Online Course - Kominfo

SKILLS

Language:

- English – Intermediate
- Indonesian – Native

Software: Python, SQL, Tableau, Google Collaboratory

Hard Skill: Data cleaning, data analysis, data visualization, and machine learning

Soft Skill: Communication, problem-solving, analytical and desire to continue learning
